

***Noblesville Police Department  
Investigative Supplement***

**Case # 00012171**

**Case Type: Death Investigation**

**Date of Supplement: 26 May 2000**

**Page 1 of 2**

---

On 25 May 2000, I had conversation with Hamilton County Prosecutor, Sonia Leerkamp regarding this death investigation. I advised her of the suspicious circumstances revolving around the still unverified identity of the decedent, Robert Paul Hoquim ( DOB: 05-14-55). I told her about the fact that we have two dates of birth for the victim. The date of birth, 05-14-55, was obtained from the false IN driver's license that was obtained at the scene of his death, and the date of birth 05-14-45 that was put on a "Voluntary Statement" written by the victim in regards to NPD case # 98007260, on 08 April 1998. We agreed that it would be best for us to attempt to obtain a search warrant for the body of the victim so that fingerprints of the victim could be taken in order to assist the police in ascertaining the victim's identity. This search warrant would be for the purposes of taking the victim to the Indiana University Medical Center, Indianapolis, for an autopsy to be completed on the victim so as to ascertain the cause of death. This search warrant would also allow the forensic pathologist performing the autopsy to remove any organs, fluids and/or tissue samples that would assist him in the medical examination. On 25 May 2000, 1430 hours, the Honorable Judge Judith Proffitt of Hamilton County Circuit Court issued the above described search warrant (Cause # 29 C 01-0005-MC 00026). On 25 May 2000, 1611 hours, I served the above search warrant at the Crown Hill Funeral Home, Indianapolis, and took the decedent to the Indiana University Medical Center, Indianapolis, with the assistance of Scott Renner (DOB: 04-29-75), representative of the Hamilton County Coroner's Office. The victim's body was left in the care and custody of staff at the Indiana University Medical Center at 1635 hours, 25 May 2000.

While I was at the Hamilton County Clerk's Office filing the search warrant with Prosecutor Leerkamp, I asked the office staff if there had been any paperwork filed in regards to the estate of the victim. I was given the attached information, filed on 25 May 2000 in Hamilton County Superior 1 Court, Cause # 29 D 01-0005-ES-0044, appointing an administrator to the estate of the victim. First Indiana Bank is appointed the Personal Representative of the estate. James H. Hernandez, First Indiana Bank's Trust Senior Vice President accepted the appointment by the court.

At 1745 hours, 25 May 2000, I recovered the false IN "driver's license" of the victim from Dean Hoover at the Pebblebrook address. The false ID was determined to be false by visual inspection by Det./Sgt. Madden and I. The Indiana Bureau of Motor Vehicles completed a "hand search" for me on the OLN # 8501-09-6103 which was on the false ID of the victim. The BMV told me that the OLN that I gave them has never been issued to anyone and is not valid. The false ID had an expiration date of May, 1997.

The signature portion of the false ID is clearly signed in ink and on a true Indiana Driver's License is a photo of the signature. The "Birth Date", "Issue Date" and Expiration section on a true Indiana Driver's License does not have hash marks in between series' of numbers. The false ID of the victim did have hash marks in the mentioned sections. A true Indiana Driver's License has the inscription, "INDIANA . INDIANA" in gold on the lamination. The false ID of the victim had no inscription(s) at all on the lamination. The lamination on a true Indiana Driver's License is rounded on the (4) corners. The lamination on the victim's false ID was squared on the (4) corners and is considerably thinner than the lamination on a true Indiana Driver's License. This false Indiana Driver's License is being kept in the case file for this incident.

As of supplement time, the identity of the decedent has not been confirmed and the investigation as to his identity is still ongoing.

Detective Brett A. Reichart # 1066
